4 oz. / 125ml  
21 oz. / 625ml  
37 oz. / 1100ml

#### PRODUCT DESCRIPTION

SKYMOs' GC4 (Advanced Gun Cleaner) has been specifically formulated for the rapid and complete cleaning of firearms, from the simplest revolver to the most sophisticated automatic rifle. GC4 will clean all types of mechanisms as well as barrels of any length or style.

GC4 will not stain metals, plastics or fabrics. It is totally harmless to wood, plastics, composites or metals.

GC4 can be used in temperatures from -60°F to 550°F with no change in its outstanding properties. It does not contain d'limones, terpinenes or water. It is completely solvent based utilizing Organic Hybrid technology.

GC4 is very economical to use. Just a few drops on a cotton swab will clean most fouling including copper, lead, plastic and carbon deposits. If the firearm gets wet, Advanced Gun Cleaner, if used promptly, will prevent rust.

Complete cleaning of your firearm with GC4 before putting it in storage will protect it and keep it ready for use immediately.

**DO NOT DILUTE SKYMO™ GC4  
USED DIRECTLY FROM THE CONTAINER**
